COURSE DESCRIPTION:

This course will focus on the study of police roles, subculture, and organizational structure as well as a critical look at how police behavior enacts the democratic dilemma of balancing social order with individual freedoms.

In successfully completing this course, students will:

- (a) Explain the function and role of police in society.
- (b) Analyze social forces that affect the definition and context of policing.
- (c) Identify major current and historical models and major issues in policing.
- (d) List and discuss the major theories about the nature and causes of crime and criminal behavior.
- (e) Discuss the relationships between police and social behavior.
- (f) Compare and contrast the stereotypes and myths commonly held about the police.
- (g) Identify current issues in policing.

This course will introduce the student to policing society by use of relevant current events in addition to lecture and selected readings. Specifically, policing society focuses on the role of the police in organized society, the nature and causes of crime and criminal behavior, and the relationships between police and social behavior. I will also encourage you to bring up relevant information during our class for discussion and debate.

The course's objectives are to equip you with an understanding of the police and the effect of police on society as well as society's effect on the police and policing. We will approach these objectives through lecture, class discussion questions, outside reading assignments, as well as information found in the text.

The secondary goal is to improve your ability to sort out important facts, retain those facts, and be able to apply them appropriately in logical arguments.

The last goal will be to further develop your analytic skills.

You will be able to accomplish the first goal by reviewing the class lecture with power point and reading the textbook assignments. Carefully reading the textbook is a requirement for successful completion of the course. The second and third goals will be accomplished by adequately meeting the class requirements/assignments

In successfully completing this course, students will be able to:

Explain the function and role of police in society.

Analyze social forces that affect the definition and context of policing.

Identify major current and historical models and major issues in policing.

List and discuss the major theories about the nature and causes of crime and criminal behavior.

Discuss the relationships between police and social behavior.

Compare and contrast the stereotypes and myths commonly held about the police.

Identify current issues in policing.

Examinations and Writing Assignment:

You will be given chapter quizzes and two writing assignments. The first writing assignment will require you to view a video on the concept of legitimacy and apply the concept to Sir Robert Peel's Nine Principles of Policing. This assignment will be worth 100 points.

The second writing assignment will consist of analyzing chapters from the *Understanding Police Culture* reader. You will demonstrate the ability to apply the material using structural functional and symbolic interaction theoretical perspectives. The writing assignment will typically require at least a 5-7 page analysis.

The writing assignments will be graded using the writing evaluation rubric located at the eiu.edu electronic writing portfolio link.

You have the option to submit this assignment for your EWP requirement. **If you choose to submit the assignment to your EWP it will need to be edited prior by me to the submission.** This assignment will be worth 200 points.

Any assignments must be typed using number 12 font, as well as, double-spacing between lines and will be submitted electronically. **The electronic submission must be able to be opened with Microsoft Word.** Late assignments will not be accepted and will result in a zero grade for the assignment.

Quizzes will be based on the course objectives and will be in multiple choice as well as true and false question format. Quizzes will be worth approximately 30/40 points each. The quizzes will cover from the *An Introduction to Policing* textbook and any material covered in class lectures. Please take note—it will be important stay current concerning readings and assignments as you will be responsible for the material which is covered in lectures and outside readings, but will not be found in the text.

Chapter quizzes will be posted online and available via D2L.

Lectures will accompany some power point presentations. The lectures will focus on expanding the students' knowledge concerning the application of sociology to the overview of policing in America contained in the text.

Missed quizzes will be counted as a zero. In case of a serious or unforeseen issue, and/or if I agree **in advance**, an alternate quiz can be arranged.

Quizzes will be worth most of the class grade. Written assignments will make up the remainder of the class grade.

The grading scale:	100 – 90	A
	89 – 80	B
	79 – 70	C

DISABILITIES STATEMENT

Students with documented disabilities are encouraged to contact the Office of Disability Services (581-6583) if they wish to discuss any necessary academic accommodations.

MEDICAL EMERGENCY STATEMENT

For medical emergencies, go to the nearest phone and call 911. All faculty offices have telephones and during normal business hours (8-12 and 1-4:30), the Sociology Office (Blair 3170) is open. Be sure to state the floor and room number of the emergency to the 911 operator. If possible, someone should go to the central entrance of Blair Hall to direct EMS personnel to the medical emergency scene. If the medical emergency is on the second or third floor, someone else should hold the elevator on the first floor for EMS use.

TORNADO STATEMENT

In case of a tornado warning, proceed to the center of the hallway on the first floor, near the posted severe weather signs. Under no circumstances should you attempt to leave the building.

BUILDING FIRE STATEMENT

In case of fire, activate the fire alarm and exit the building. When a fire alarm sounds, everyone must exit the building and cannot re-enter the building until allowed by the building coordinator or fire department official. Fire alarms are located at the north and south ends of the corridors just inside the fire doors. The closest exits for all classrooms in Blair are on the north and south ends of the building. Under no circumstance should the elevator be used. Group assembly areas for all classes in Blair are either on the patio area between Blair and Old Main or on the southeast corner of the North Quad. As you exit the building, continue moving well away from the exits so that you do not impede the egress of other students or the work of fire officials. Move a safe distance away from the building.

Classroom Conduct:

Do not talk during the class—chatter between students disrupts the class

Do not “text” during the class

Please “**silence**” cell phones prior to our class period

Do not arrive late to class, unless you have made prior arrangements

Do not leave trash in the class

This means any devices (laptops, note pads, cell phones, etc.) If an electronic device is used at any time during the testing period the student will receive zero points on the quiz. Keep your phone in your pocket or backpack until you leave the classroom.

No one will be allowed to leave the room during testing unless the student turns in their scan-tron. The scan-tron will not be returned.

Violation of the conduct code could result in disciplinary action by the University
